EDUC-X159: You@IU

A Course that Hacks College and IU:

• What to Do
• Where to Go
• Make a 4-Year Plan
• Find Opportunities
• Explore Majors and Careers
• Learn the Skills

“I would say only about 60%-70% was spent in the classroom. A lot of times we would meet as a class in various locations around campus to explore them and learn more about IU. This was helpful in learning the campus thoroughly and seeing all the things IU has to offer.”
