

## Quizzes! Tests! Exams!

1. Identify what the student was doing wrong in the story the co-hosts told at the beginning of the [episode](#). Then, using the tips and strategies presented throughout the episode, rewrite this story so it turns out to be a successful test-taking experience.
2. Create a checklist of things you should do when preparing to define and schedule study time for an upcoming quiz, test, or exam. Then try using this checklist for an actual test in one of your classes.
3. Download the [Study Guide Template](#) from our website and complete it as you prepare for this quiz, test, or exam.
  - Use [Quizlet](#) to create a custom set of flashcards you can use to review and memorize key terms.
  - Use some of Joshua Foer’s suggestions regarding elaborative encoding and the “memory palace” from his [TED Talk](#).
